

ADULTICIDES

DIBROM CONCENTRATE

is 87.4% Naled. This organophosphate product gives excellent adult mosquito control in residential areas, municipalities, tidal marshes, swamps, woodlands, and agricultural areas [when applied in wide area public pest control programs]. It also is approved for livestock pastures, feed lots and pastures, including dairy cattle.

30 Gallon Drum - 667036

FYFANON® ULV MOSQUITO INSECTICIDE

Fyfanon contains 96.5% malathion. It is labeled for aerial and ground-application mosquito control and has been an important tool for mosquito control in the U.S., Canada and around the world for 60 years. Fyfanon is one of the few non-pyrethroid options remaining with registration for mosquito control. It has a pivotal role in rotational programs, designed to minimize the potential for development of resistance and preserve the limited number of products now available for mosquito control. Consider Fyfanon ULV Mosquito as a partner in your resistance management program.

5 Gallon Pail - 823865
55 Gallon Drum - 823777
260 Gallon Tote - 823860

MASTERLINE AQUA-KONTROL 30-30

is a water dilutable 30% permethrin / 30% PBO adulticide formulated with convenience and efficacy in mind. Mixes easily with even the hardest water. No need for mixing station. Aqua-Kontrol 30-30 stays in solution, no need for agitation. Simply add three 2.5 gallon jugs and top off 55 gallon drum to create a 4.1 product. It eliminates rinsate disposal issues and increases storage capacity. Best of all, it uses leading edge technology to maximize cloud performance and efficacy equal to or superior to other oil based products.

1 Gallon Jug - 810646
2.5 Gallon Jug - 810864
30 Gallon Drum - 809907

MASTERLINE KONTROL 4-4 CONCENTRATE

is a 4.6% permethrin / 4.6% PBO low-odor oil formulation that is ready to use and ideally suited for most areas over specific crops, including alfalfa and range grasses. As a non-corrosive, it won't damage cars, trucks or airplanes. Its broad spectrum, superior formulation is clean and clear and provides quick knockdown of most mosquito species as well as other Diptera species such as biting and non-biting midges, black flies and gnats. Kontrol 4-4 can be applied ultra low volume [ULV] by air or ground. It can also be applied either as a mist barrier or from a thermal fogger.

2.5 Gallon Jug - 802405
30 Gallon Drum - 806718
55 Gallon Drum - 811122
275 Gallon Tote - 802401
Bulk - 802399

MASTERLINE KONTROL 30-30 CONCENTRATE

is an oil-based formulation of 30% permethrin / 30% PBO. This is a superior product with broad spectrum application that shares the same features and benefits as MasterLine Kontrol 4-4 Concentrate. Can be applied ultra low volume [ULV] by air or ground. Both can also be applied either as a mist barrier or from a thermal fogger.

2.5 Gallon Jug - 802406
30 Gallon Drum - 802400
55 Gallon Drum - 802407
275 Gallon Tote - 802938

MASTERLINE KONTROL 31-67 CONCENTRATE

is a fully loaded oil-based formulation with 31% permethrin / 67% PBO. It is ideal for use in situations with hard to control pests. The additional PBO provides the extra kick, yielding higher knockdown. Kontrol 31-67 can be used "neat" (undiluted) or diluted, applied ultra low volume (ULV) by air or ground. It can also be applied either as a mist barrier or from a thermal fogger.

STRYKER™

is a multi-purpose concentrate insecticide that contains 6% pyrethrins and 60% piperonyl butoxide for a fast knockdown and efficient control of insect pests. Stryker can be mixed with other insecticides or insect growth regulators to enhance its effectiveness.

16 Ounce Bottle – 810465

TRUMPET EC

is 78% Naled. Trumpet has all the same great features and benefits as Dibrom Concentrate. However, it has been designed to be rinsed from the spray equipment with water rather than solvent. This is a good choice when your application equipment (aircraft) is used for several different spray programs.

30 Gallon Drum – 650291

ZENIVEX® E20 AND E4 RTU

are oil-based formulations for use in ultra low volume (ULV) applications and do not require dilution. Now approved for use over cropland and pastureland*, both formulations are ready to use for hand, ground or aerial application, require no aquatic setbacks and are approved to use throughout urban and rural settings. Zenivex mosquito adulticide provides two alternatives for adult mosquito control. It is a high efficacy, reduced risk adulticide that provides quick, permanent knockdown and reliable control of adult mosquito populations in any mosquito habitat.

*New York and Florida pending registration
